

# VENDOR GUIDE TO MANDATORY PRE-POPULATION IN WAWF 5.4

---

# Contents

- What is mandatory EDA pre-population?
- How does it affect vendor invoice creation?
- What is the impact to 2-in-1 and Combo Documents?
  - 2-in-1 Walkthrough
  - Combo Walkthrough
- What if the pre-population information is incorrect?
- What if some data does not pre-populate?
- Deleting and Adding CLINs
- Additional Resources

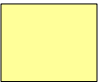

## What is mandatory EDA pre-population?

- Mandatory EDA pre-population of CLIN data was implemented in WAWF version 5.4
- If contract data is available in the correct format in EDA it will pre-populate in WAWF
- The vendor must select one or more CLINs to pre-populate, it is no longer an option

## How does mandatory EDA pre-population affect vendor invoice creation?

- If CLIN data is available to pre-populate, the vendor must select at least one CLIN to continue on to the next screen in the document creation process – even if the CLIN they want to bill/ship for is not displayed
- Line Item Tab quantities must be adjusted to the number of units being shipped/serviced
- ACRN and MILSTRIP amounts and quantities must be adjusted according to the number of units being shipped/serviced
- Vendor must manually input any additional required information that is not pre-populated (e.g., dates of service)
- Vendors should review all documents to be sure all information data fields that pre-populated are correct and that any required additional information has been added before submitting the document for Government approval

## What is the impact to 2-in-1 and Combo documents?

- The following slides will present walkthroughs of both the 2-in-1 and combo documents, showing the impact of mandatory pre-population to these specific document types
  - 2-in-1 Walkthrough
  - Combo Walkthrough
-  represents instructional information
-  represents troubleshooting information

## Vendor - Invoice 2-in-1

CLIN/SLIN

ACRNs

Item No.	CLIN Amount (\$)	ACRN Amount (\$)	Difference (\$)
0001	40.00	80.00	-40.00

ACRN	Amount (\$)	Actions
AA	80.00	<a href="#">Delete ACRN</a> <a href="#">Add ACRN</a>

Edit the ACRN amount to match the CLIN amount.

Do not Delete ACRN (an ACRN is required to complete the invoice). Do not Add ACRN (the government LPO will ensure the ACRN information is correct).

In some cases, the ACRN Amount will pre-populate with the full amount of the CLIN and will not match the CLIN amount entered/adjusted by the vendor on the Line Item tab. In these cases, the ACRN amount will need to be adjusted to match the CLIN amount.

On the ACRNs tab, if ACRN(s) pre-populated, it/they must match the total of CLIN amount.

### Vendor - Receiving Report and Invoice COMBO

[CLIN/SLIN](#) [ACRNs](#) [UID](#) [MILSTRIP](#) [Batch/Lot & Shelf Life](#)

Item No.	CLIN Amount (\$)	ACRN Amount (\$)	Difference (\$)
0001	40.00	80.00	-40.00

ACRN	Amount (\$)	Actions
AA	80.00	<a href="#">Delete ACRN</a> <a href="#">Add ACRN</a>

Edit the ACRN amount to match the CLIN amount.

Do not Delete ACRN (an ACRN is required to complete the invoice). Do not Add ACRN (the government LPO will ensure the ACRN information is correct).

In some cases, the ACRN Amount will pre-populate with the full amount of the CLIN and will not match the CLIN amount entered/adjusted by the vendor on the Line Item tab. In these cases, the ACRN amount will need to be adjusted to match the CLIN amount.

On the ACRNs tab, if ACRN(s) pre-populated, it/they must match the total of CLIN amount.

### Vendor - Receiving Report and Invoice COMBO

[CLIN/SLIN](#) [ACRNs](#) [UID](#) [MILSTRIP](#) [Batch/Lot & Shelf Life](#)

\* = Required Fields

MILSTRIP No.	MILSTRIP Qty.	Actions
<input type="text"/>	<input type="text"/>	<a href="#">Save</a>
N6227111RCCV059	1	<a href="#">Edit</a> <a href="#">Delete</a>

Do NOT use these fields to adjust quantity. These fields are used to add/create MILSTRIPs.

To adjust MILSTRIP Quantity, click Edit, change quantity to match the CLIN quantity, and save.

In some cases, the MILSTRIP quantity will populate with the full quantity of the CLIN and will not match the CLIN quantity entered/adjusted by the vendor on the Line Item tab. In these cases, the MILSTRIP quantity will need to be adjusted.

On the MILSTRIP tab, if MILSTRIP(s) pre-populated, it/they must match the total quantity of the line item. Click the CLIN/SLIN tab.

# What if the pre-population information is incorrect?

- It may be an indication that there is an issue with the contract data in the system
  - Contact the contracting office before proceeding
  - Continuing to create the invoice may result in invoice processing issues
- Once discrepancies have been resolved or if the contracting office indicates you should proceed, please enter required fields in accordance with the contract using the delete and add CLIN features

## What if some data does not pre-populate?

- Data elements pre-populate if they are available in EDA in the necessary format
- If data does not pre-populate, please enter required fields in accordance with the contract using the delete and add CLIN features
